Acknowledgments

The author would like to thank the many officials and experts in the European institutions and in other organisations who have generously given interviews for EC INFORM-Energy and for this report. All the opinions, however, are entirely the author's responsibility. Special thanks are due to Theo Leggett for his skilled editing and editorial advice, and to Adam and Barbara Collecott for their help with production.

The author

Paul Lyons has worked as a journalist in the energy and related industries for 15 years with IPC, McGraw-Hill, and with Financial Times Business Information. Between 1987 and 1992, he worked as a newsletter editor at the Financial Times where he was editor of *European Energy Report* and where he devised and edited *East European Energy Report* and *EC Energy Monthly*. He is also the author of two Financial Times Management Reports - '*The New Energy Markets of the Soviet Union and East Europe*' and '*EC Energy Policy*' and two previous EC INFORM reports '*Energy policies of the European Union*' and '*EU energy policies of the mid-1990s*'. Since January 1993, Paul Lyons has edited and written for the independent monthly newsletter EC INFORM-Energy.

CONTENTS

CHAPTER ONE

INTRODUCTION 1

CHAPTER TWO

WHAT IS ENERGY POLICY?

INTRODUCTION 5

DEVELOPING A COMMUNITY STRATEGY FOR ENERGY 5

- Detailed statement on energy policy by Council of Ministers 6
- The Commission's white paper - an energy policy for the EU 6
- Member States' response to the white paper 7

NEW ENERGY POLICY INSTRUMENTS FOR THE 21ST CENTURY 8

- Proposal for agreement on common energy objectives 8
- The Energy Consultative Committee for a dialogue with industry 9
- Towards a restructuring of DGXVII's energy programmes 10
- The Energy Framework Programme structure 10
- The Energy Observatory and Carnot programmes 12
- Support for international cooperation through Synergy 12
- Monitoring energy investment in the Member States 13

FAILED ATTEMPTS TO INTRODUCE AN ENERGY CHAPTER 13

- Commission Opinions for intergovernmental conference 14
- Interventions on energy by Ireland and Italy 15

ASSESSMENT 15

CHAPTER THREE

THE SINGLE MARKET

INTRODUCTION 19

A SINGLE MARKET - BUT WITH ENERGY LAGGING BEHIND 19

- Early background to the internal energy market 20

PROCUREMENT RULES - INCLUDING THE EXCLUDED SECTORS 21

- Slow transposition and inadequate economic benefits 21
- International aspects of the Utilities Directive 22
- Fraught attempt to adapt the Utilities Directive 23

TAXATION - INDUCING HARMONISATION WITH GREEN OVERTONES 23

- Large number of national exceptions continue 23
- Refinements to original harmonisation Directives 24
- Ambitious proposal to incorporate environmental objectives 24
- Encouraging the use of environmental taxes 26

ASSESSMENT 26

CHAPTER THREE A

THE INTERNAL ELECTRICITY MARKET

INTRODUCTION 29

THE ELECTRICITY MARKET DIRECTIVE - A MAJOR ACHIEVEMENT 29

- Original proposals for liberalisation considered overly ambitious 29
- The year-long debate over the Single Buyer concept 30
- Final issues resolved under Spanish and Italian Presidencies 30
- MEPs' decision to accept the Common Position 31
- Summary of the electricity Directive's rules 31
- The complex process of implementation 32
- A first look at extra harmonisation requirements 33

MINOR ACHIEVEMENTS THROUGH THE USE OF COMPETITION LAW 33

- Competition threats directly aimed at monopolies 34
- Five cases brought to Court over import/export monopolies 34
- Judgements fail to shed light on internal energy market 35
- Restricting electricity power purchase agreements 35
- DGIV interventions in Belgium and Denmark 36
- EU competition aspects of electricity mergers 36
- Application of Treaty law by national authorities and courts 37
- EFTA Surveillance Authority energy cases 38

ASSESSMENT 38

CHAPTER THREE B

THE INTERNAL GAS MARKET

INTRODUCTION	41
NEGOTIATING THE GAS DIRECTIVE - IN THE STEPS OF ELECTRICITY	41
Proposal for common rules in the gas market	42
General support in favour of the Directive	42
Political agreement reached under Luxembourg Presidency	42
THE INTERNAL GAS MARKET - DETAILS FROM THE DIRECTIVE	43
Rules on market access and eligible consumers	43
Provisions on equality and upstream networks	44
Authorising derogations for take-or-pay contracts	45
LIMITED OPPORTUNITIES FOR APPLICATION OF COMPETITION LAW	45
Restricting long-term gas supply agreements	46
Germany's attempts to break down regional monopolies	46
The Commission's inspection of gas sector mergers	47
ASSESSMENT	47

CHAPTER THREE C

THE SINGLE MARKET - COAL, OIL, BIOFUEL

INTRODUCTION	49
CUTTING COAL SUBSIDIES - A CASE FOR COMMISSION PERSEVERANCE	49
Decision 93/3632/ECSC and its transition period	49
A decade of conflict between Brussels and Bonn	50
Complaints against German sales of anthracite into the UK	51
Close examination of German mergers and acquisitions	51
Limited state aid for lignite operations in Germany	52
Spain faced with social and economic problems	52
Coal state aid in Portugal, France and Ireland	53
The UK aims to maintain a competitive coal industry	53
ENHANCING THE OIL MARKET OPERATION - UPSTREAM AND DOWNSTREAM	54
Upstream industry concerns over application of working time rules	54
Revision of the block exemptions under discussion	55
Four options proposed for future of block exemptions	56
Oil market liberalisation in Greece, Spain and Portugal	56
Discrepancies over aid payments to German refinery	56
Ownership changes in refinery and distribution sector	57
Commission approval for developments in UK and France	57
A CATALOGUE OF INFRINGEMENTS CONCERNING BIOFUELS	58
Discriminatory measures in Italy and Belgium	58
Concerted French attempts to back biofuel development	59
Commission attacked in Court over failure to act	59
Commission authorisation for French scheme challenged	60
APPLICATION OF COMPETITION RULES TO ENERGY SAVING SCHEMES	60
ASSESSMENT	61

CHAPTER FOUR

ENVIRONMENTAL POLICY

INTRODUCTION	63
TOWARDS SUSTAINABILITY - TOWARDS A MAJOR NEW AGENDA	64
Review pinpoints unwillingness to make progress	64
Draft Decision to strengthen environmental policy	64
MEPs seek to strengthen framework programme	65
THE EUROPEAN ENVIRONMENT AGENCY - A BACKBONE FOR POLICY	65
A widening of the EEA's cooperative network	66
THE REGULATORY APPROACH - POTENT NEW PREVENTATIVE LEGISLATION	66
Proposal for strategic environmental assessment	68
Finding a consensus with UK and Norway on oil platform decommissioning	68
Integrated pollution prevention and control	69
The difficult area of environmental liability	70

COERCION - EU LAW ENFORCEMENT AND TRADE MECHANISMS	70
International efforts to improve environmental policies	71
THE VOLUNTARY APPROACH - A GREEN CONSCIENCE FOR BUSINESS	71
Ecolabel, ecomanagement and environmental auditing	72
ASSESSMENT	73

CHAPTER FOUR A**CONTROLLING AIR QUALITY**

INTRODUCTION	75
REGULATING AIR QUALITY - ASSESSMENT AND CONTROLS	75
Details from air quality framework Directive	75
The first daughter Directive with limit values for SO ₂ , NO _x	76
REDUCING THE IMPACT OF VEHICLE ENGINE EMISSIONS	77
The Auto-Oil Programme results	77
New vehicle emission limits for the 21st century	78
Towards a conciliation procedure on vehicle standards	78
New standards for light commercial vehicles	79
Diesel engines in lorries and off-road vehicles	79
FUEL QUALITIES - A MORE CONSISTENT REGULATORY APPROACH	80
Draft Directive on fuel limits for pollutants	80
Towards a difficult conciliation on fuel quality	80
TRANSBOUNDARY POLLUTION AND THE PROBLEM OF ACIDIFICATION	81
Commission strategy paper on acidification	81
New proposals due on large combustion plant	82
Measures to foster international cooperation	82
Council restrictions on acidification strategy	83
ASSESSMENT	83

CHAPTER FOUR B**CLIMATE CHANGE POLICIES**

INTRODUCTION	85
THE FIRST PHASE - POLICIES FOR STABILISATION BY 2000	85
The first CO ₂ /energy tax proposal	86
The Commission's second attempt at a climate change tax	86
A mechanism to monitor CO ₂ emissions and programme implementation	87
Revised mechanism for monitoring beyond 2000	87
PREPARATIONS FOR KYOTO AND A LEGALLY BINDING PROTOCOL	88
Berlin mandate granted by First Conference of the Parties	88
Common and coordinated policies and measures needed	88
The energy dimension of climate change	89
The Commission's strategy paper in advance of Kyoto	90
The Kyoto agreement for a binding Protocol	90
The Kyoto follow-up process	91
ENERGY EFFICIENCY - THE BEDROCK OF CO₂ CONTROL POLICY	91
Energy efficiency standards and voluntary agreements	91
The rest of the SAVE legislative programme	92
The SAVE grant programme of projects and promotion	93
Six categories of action for SAVE II	94
Developing a strategy for cogeneration	94
A new energy efficiency strategy for the 21st century?	95
RENEWABLE ENERGY SOURCES - ENERGIES FOR THE FUTURE	96
The Altener II programme agreed for two years only	96
Towards a Community strategy for renewables	97
The white paper on renewable energy sources	98
A Directive expected on fair access for renewables	98
RELATED DEVELOPMENTS IN TRANSPORT AND OTHER POLICIES	100
Reducing CO ₂ emissions from passenger cars	100
A citizen's network and fair pricing	101
First Communication on transport and climate change	101
The control of methane emissions under investigation	102
ASSESSMENT	102

CHAPTER FIVE

SECURITY OF SUPPLY

INTRODUCTION	105
STOCKS AND CRISIS MEASURES - THE LEGACY OF THE 1970s	106
Updating the Community rules on oil stocks	106
Deregulation of peripheral oil crisis rules	107
Monitoring the state of the refinery markets	107
NATURAL GAS - THE FOCUS FOR SUPPLY CONCERNS OF THE FUTURE	108
Possible future actions concerning natural gas security	109
The Council limits short-term action to studies	109
MEPs concerned about pipeline dependency and renewables	110
PUBLIC SERVICE OBLIGATIONS AND THE GRID-BASED ENERGIES	111
Recognition of general economic interests in Treaty	111
ASSESSMENT	112

CHAPTER SIX

ECONOMIC AND SOCIAL COHESION

INTRODUCTION	115
TRANS-EUROPEAN ENERGY NETWORKS - ECONOMIC INTEGRATION	116
Details of the TENs Guidelines Decision	116
Financing the TENs feasibility studies	117
Other financing instruments for TENs	118
Sustaining the political impetus on priority projects	119
Difficulties with France-Spain and Greece-Italy links	119
The external dimension of energy TENs	120
REGIONAL DEVELOPMENT BACKED BY THE STRUCTURAL FUNDS	121
Interreg support for cross-border energy links	122
Rechar support for revitalising coal mining regions	123
ASSESSMENT	123

CHAPTER SEVEN

NUCLEAR ISSUES

INTRODUCTION	125
POLICY FRAMEWORK RELIES ON ILLUSTRATIVE NUCLEAR PROGRAMME	125
Revision of Euratom proposed by Ireland	126
The fourth illustrative nuclear programme	127
Seven main features and challenges for the future	127
The Opinion of the Economic and Social Committee	128
The Parliament's failure to agree an Opinion	129
SECURITY OF FUEL SUPPLY AND THE ROLE OF TRADE AGREEMENTS	129
KLE's challenge to the Euratom Supply Agency	129
Uranium imports from the NIS continue to rise	130
ENU's challenge to Euratom's supply policy	130
Supply of HEU a particular concern	131
Negotiating the complex Euratom-US nuclear agreement	131
Details of the Euratom-US agreement	132
MEPs' frustration at lack of consultation on the agreement	132
Other nuclear agreements with Western partners	133
No formal development in nuclear relations with Russia	133
NON-PROLIFERATION/SAFEGUARDS - PRESERVING EURATOM'S STATUS	134
The extent of the Community's safeguards operation	134
The future challenges for safeguards policy	135
Efforts to clamp down on nuclear materials smuggling	135
Commission report on results of anti-smuggling actions	136
Community contributions to the ISTC in Moscow and KEDO	136
NUCLEAR SAFETY - ALWAYS AN ABSOLUTE PRIORITY	137
Basic nuclear safety standards for radiation protection	137
Additional rules on radioactive shipments	137
The Community's radioactive waste management strategy	138
DGXVII's contribution to nuclear safety activities	138
Promoting the nuclear safety of installations	139
Nuclear safety a priority for Phare and Tacis	139

Moscow summit on nuclear safety	140	
The West's persistent efforts to close Chernobyl	140	
Western initiatives in Bulgaria, Slovakia and Lithuania	141	
Developing a more refined strategy towards Eastern Europe	142	
ASSESSMENT		143
 CHAPTER EIGHT		
<u>RESEARCH AND DEMONSTRATION</u>		
INTRODUCTION		145
THE THIRD RTD FRAMEWORK PROGRAMME AND THERMIE		145
Thermie support for targeted projects and dissemination	145	
THE FOURTH FP - CLOSING THE GAP BETWEEN R&D AND DEMONSTRATION		146
The non-nuclear energy R&D programme	147	
Examples from the Joule part of the energy programme	147	
The non-nuclear energy demonstration programme	148	
The nuclear fusion and fission programmes	149	
The Fourth FP supplement and task forces	150	
The role of the Joint Research Council	150	
THE FIFTH PROGRAMME - BETTER TARGETING, IMPROVED TRANSPARENCY		151
Proposal to reduce thematic programmes to three	151	
The Fifth FP budget and management proposals	152	
The EP's call for over one hundred amendments	152	
Budget cutbacks agreed by the Member States	153	
The Fifth Framework Programme approach to fusion	154	
DWINDLING FUNDS FOR TECHNICAL COAL R&D PROGRAMME		155
INTERNATIONAL ASPECTS - WIDENING COOPERATION OPPORTUNITIES		155
Cooperation with and support for the CEEC and NIS	156	
ASSESSMENT		157
 CHAPTER NINE		
<u>ENLARGEMENT</u>		
INTRODUCTION		159
THE PRE-ACCESSION STRATEGY - THREE MAIN ELEMENTS		159
Europe Agreements set the framework for cooperation	160	
The energy and environment Structured Dialogues	161	
THE INTERNAL MARKET AND ENVIRONMENT - MOUNTAINS TO BE CLIMBED		161
Difficulties of approximation in energy	161	
The huge burden of environmental laws	162	
AGENDA 2000 - HOW TO MANAGE THE ENLARGEMENT PROCESS		163
The impact of enlargement on CEEC energy and environment	164	
The impact of enlargement on EU energy policies	164	
Setting up the Accession Partnerships	165	
International banks provide the investment support	165	
OPINIONS ON CEEC ACCESSION - FIVE READY, FIVE NOT READY		165
Hungary - positive progress in the energy sector	166	
Poland - the largest of the applicant countries	167	
Estonia - the only Baltic state ready to start negotiations	167	
Czech Republic - energy policy in line with the EU	168	
Slovenia - a country with diversified energy sources	168	
Slovakia - failure to meet political criteria	169	
Romania - no clear overall energy policy	170	
Latvia - concerns over economic criteria	170	
Lithuania - closure of Ignalina necessary	171	
Bulgaria - insufficient progress on transposition of the acquis	171	
ASSESSMENT		172
 CHAPTER TEN		
<u>INTERNATIONAL AFFAIRS</u>		
INTRODUCTION		175
ENCOURAGING REFORM AND MODERNISATION IN THE NIS		175
Energy sector projects in the national programmes	176	

The regional facilities programmes	176
Tacis evolution and evaluation	177
The Partnership and Cooperation Agreements	178
Strategic action plans for Russia and Ukraine	178
THE ENERGY CHARTER TREATY - EXPLOITING EAST-WEST SYNERGIES	179
Extension of the Treaty to the pre-investment phase	179
THE EURO-MED PARTNERSHIP - A NEW IMPETUS FOR SOUTHERN NEIGHBOURS	180
Meda and the Euro-Med Agreements	180
The energy sector to play a pivotal role	181
The tasks of the Euro-Mediterranean Energy Forum	181
US RELATIONS - PROCUREMENT, ENVIRONMENT AND INVESTMENT ISSUES	182
EU reaction to the d'Amato act	183
GULF COOPERATION COUNCIL - OIL AND GAS MARKET CONCERNS	184
ENERGY COOPERATION STRATEGIES FOR ASIA AND LATIN AMERICA	184
Priority areas for energy cooperation in Asia	185
The Alure programme for energy projects in Latin America	185
ASSESSMENT	186
 <u>DOCUMENT LISTINGS</u>	 189
 <u>WEBSITE LISTINGS</u>	 195
 <u>GLOSSARY</u>	 197
 <u>TABLES AND CHARTS</u>	
Main sources of finance for Community energy actions	11
Threshold for access rights in the third country electricity sectors	22
Prevailing minimum excise taxes for oil products	23
Proposed minimum taxation levels for energy	25
Environment-related charges used by Member States	26
Calculation of average share of electricity market opening	32
Electricity Directive choices	39
Calculation of Member States' gas market opening	44
Coal production costs by Member State	50
Coal aid authorised 1992-95	61
EU emissions of various pollutants	66
Energy sector installations in EIA Directive	67
Current engine emissions standards	77
Proposed engine emissions standards	78
Proposed fuel quality standards	80
Greenhouse gas reduction targets for 2010 compared to 1990	89
Energy intensity in the Member States 1985-95	93
Share of renewables in gross inland energy use	97
Commission's action plan for renewables	99
Member States' CO ₂ emissions	103
European Union energy imports 1985-2000	105
Member States' gas consumption 1992-96	109
Electricity network projects of common interest	117
Gas network projects of common interest	118
Status of Christophersen Group projects	120
Rechar II programmes by region	122
Gross nuclear production as share of total electricity output	126
Phare/Tacis budget 1990-97	139
Tacis funds committed for environment/nuclear safety	140
Marginal environmental damage for greenhouse gases	148
Environmental damage costs of energy sources	148
Stage I energy sector measures the CEEC must implement	162
Selected parameters of applicant countries	166
Tacis funds for non-nuclear energy	177
